## **BUSINESS RADIO (SIMPLE SITE) LICENCE**

### **SCHEDULE 1 TO LICENCE NUMBER 0000001/1**

This schedule forms part of Licence **0000001/1**, issued to **Test Customer Ltd**, the Licensee on **19 April 2000** and describes the Radio Equipment covered by the Licence and the purpose for which the Radio Equipment may be used.

#### **Description of the Radio Equipment licensed**

In this Licence, the Radio Equipment means sending and receiving station(s) ("base stations") and sending and receiving station(s) ("mobile stations) for wireless telegraphy as defined in paragraph 2 below.

#### **Purpose of the Radio Equipment**

Subject to the administrative and technical requirements set out in this and the subsequent schedule(s) to this Licence, the Licensee and any person authorised to act on the Licensee's behalf is hereby authorised to:

send and receive messages concerning the business of the Licensee between the base station(s) and the mobile station(s); and/or

send and receive messages concerning the business of the Licensee between the mobile stations.

#### **Interface Requirements for the Radio Equipment use**

Use of the radio equipment shall be in accordance with the following Interface Requirement:

IR 2044 for "Business Radio Land Mobile Services, covering Area Defined, Technically Assigned and Light Licence Authorisations";

or for equipment first placed on the market before 8 April 2000, is required to be type approved in accordance with the appropriate published technical performance standards authorised at the date of installation of the Radio Equipment, subject to any modifications authorised by Ofcom.

The Licensee shall provide acceptable documentary evidence of conformity on request within 28 days, for all or any part of the systems, to an Ofcom representative.

#### **Special conditions relating to the activities of the Licensee**

The Licensee shall ensure that the Radio Equipment is:

not used to transmit music, broadcast programmes or obscene or offensive language;

not used as a public address system; and

not used to send misleading messages.

Upon receipt of messages not connected with the business of the Licensee, the

he or any person using the Radio Equipment shall not:

make known the contents of any such message, its origin or destination, its existence or the fact of its receipt to any person, except to a duly authorised officer of the Her Majesty's Government, a person authorised by Ofcom or in the course of legal proceedings or for the purpose of any report thereof; and

retain any copy or make any use of any such message, or allow it to be reproduced in writing, copied or made use of.

### **Technical conditions**

Base stations must not communicate directly with other base stations;

The maximum permitted ERP for base stations is 2 Watts except where Schedule 2 specifies otherwise;

The maximum permitted ERP for mobile stations is 2 Watts except where Schedule 2 specifies otherwise;

The maximum permitted base station antenna height above ground level is 15 metres except where Schedule 2 specifies otherwise.

### **Interpretation**

In this schedule:

“ERP” means effective radiated power, which is the power radiated from the antenna in the direction of maximum radiation; and is relative to a half wave dipole.

“IR” means the United Kingdom Radio Interface Requirement published by Ofcom in accordance with Article 4.1 of Directive 1999/5/EC of the European Parliament and of the Council on radio equipment and telecommunications terminal equipment (RTTE) and mutual recognition of their conformity. The Directive was implemented in the UK by the Radio Equipment and Telecommunications Terminal Equipment Regulations (S.I. 2000/730).
