

## Key Commitments

**Licence number: CR00093**

<b>Service name</b>	<b>Castledown Radio</b>
<b>Licence area</b>	<b>Tidworth/Ludgershall (as shown in the licensed coverage area map)</b>
<b>Frequency</b>	<b>104.7 MHz</b>

### Description of character of service

Castledown Radio is for people who live and work in the 'Tidworth Community Area'. While serving all members of the community, it has a particular focus on the older population, women who are dependants of soldiers and those who live in rurally isolated villages. The station delivers local information and promotes community activities and events. It also offers training and encourages participation in the station.

The service broadcasts:

- Music. The main type of music broadcast over the course of each week is: chart music from the 1950s to the present day. Specialist music genres and music from local performers also feature.
- Speech. The main types of speech output broadcast over the course of each week are: local and national news, information, interviews, features and discussions.
- The service provides original output<sup>1</sup> for a minimum of six hours per day.
- The service provides locally-produced output<sup>2</sup> for a minimum of four hours per day.

The studio is located within the licensed coverage area.

The service provides a range of community benefits (social gain objectives mandated by statute) for the target community, both on-air and off-air, and in doing so, achieves the following objectives:

- the facilitation of discussion and the expression of opinion,
- the provision (whether by means of programmes included in the service or otherwise) of education or training to individuals not employed by the person providing the service, and
- the better understanding of the particular community and the strengthening of links within it.

Members of the target community contribute to the operation and management of the service.

The service has mechanisms in place to ensure it is accountable to its target community.

[September 2006. Revised August 2015; September 2016]

<sup>1</sup> Original output is output that is first produced for and transmitted by the service, and excludes output that was transmitted elsewhere before. Original output can be live or voice-tracked. Repeat broadcasts of original output do not count towards the minimum requirement.

<sup>2</sup> Locally-produced output is any output made and broadcast from within the service's licensed coverage area. It may include all types of local production.
