Service name	Radio Tamworth
Licence area	Tamworth (as shown in the licensed coverage area map)
Frequency	106.8 MHz

Description of character of service

Radio Tamworth is for the residents of Tamworth, primarily those under the age of 30. It trains residents of any age group with relevant skills, and encourages their participation in its operation and programming output.

The service broadcasts:

- Music. The main types of music broadcast over the course of each week are: pop, rock, indie, alternative, dance and R&B, as well as specialist programming.
- Speech. The main types of speech output broadcast over the course of each week are: local news, sports, community information, discussions, and features of relevance and interest to a younger audience.
- The service provides original output¹ for a minimum of 44 hours per week.
- The service provides locally-produced output² for a minimum of 13 hours per day.

The studio is located within the licensed coverage area.

The service provides a range of community benefits (social gain objectives mandated by statute) for the target community, both on-air and off-air, and in doing so, achieves the following objectives:

- the facilitation of discussion and the expression of opinion,
- the provision (whether by means of programmes included in the service or otherwise) of education or training to individuals not employed by the person providing the service, and
- the better understanding of the particular community and the strengthening of links within it.

Members of the target community contribute to the operation and management of the service.

The service has mechanisms in place to ensure it is accountable to its target community.

[December 2009. Revised April 2011; November 2014; September 2016]

¹ Original output is output that is first produced for and transmitted by the service, and excludes output that was transmitted elsewhere before. Original output can be live or voice-tracked. Repeat broadcasts of original output do not count towards the minimum requirement.

² Locally-produced output is output made and broadcast from within the service's licensed coverage area.
