

Key Commitments**Licence number: CR000200**

Service name	In2beats FM
Licence area	Bedford (as shown in the licensed coverage area map)
Frequency	106.5MHz

Description of character of service

In2beats FM is for those aged 14 to 35 in Bedford and surrounding areas with an interest in urban music. It provides programming of direct relevance to this specific target audience as well as serving the wider community with the occasional mixed genre show. It involves the target community in producing output and gives training in media and life skills.

The service broadcasts:

- Music. The main types of music broadcast over the course of each week are urban music genres.
- Speech. The main types of speech output broadcast over the course of each week are local and community news and information of interest and relevance to the target community, and what's on information.
- The service provides original output¹ for a minimum of 10 hours per day.
- The service provides locally-produced output² for a minimum of 13 hours per day.

The studio is located within the licensed coverage area.

The service provides a range of community benefits (social gain objectives mandated by statute) for the target community, both on-air and off-air, and in doing so, achieves the following objectives:

- the facilitation of discussion and the expression of opinion,
- the provision (whether by means of programmes included in the service or otherwise) of education or training to individuals not employed by the person providing the service, and
- the better understanding of the particular community and the strengthening of links within it.

Members of the target community contribute to the operation and management of the service.

The service has mechanisms in place to ensure it is accountable to its target community.

[May 2011. Revised November 2014; September 2016]

¹ Original output is output that is first produced for and transmitted by the service, and excludes output that was transmitted elsewhere before. Original output can be live or voice-tracked. Repeat broadcasts of original output do not count towards the minimum requirement.

² Locally-produced output is output made and broadcast from within the service's licensed coverage area.
