

Key Commitments**Licence number: CR000248BA**

Service name	CHBN
Licence area	The City of Truro and the surrounding area (as shown in the licensed coverage area map)
Frequency	100.8 MHz

Description of character of service

CHBN is for people who live, work, study in, receive medical assessment or treatment in the Truro area. It encourages health and wellbeing amongst individuals from all sections of the community by regularly promoting advice and support on a wide range of different topics and publicising services that are available to help the community.

The service broadcasts:

- Music. The music broadcast over the course of each week is a broad range of genres with some specialist music programmes to cater for specific interests. There are regular request based programmes.
- Speech. The main types of speech output broadcast over the course of each week are: local news, traffic/travel and event guides, information, advice, support, and features about lifestyle, health and wellbeing.
- The service provides original output¹ for a minimum of five hours per day.
- The service provides locally-produced output² for a minimum of 13 hours per day.

The studio is located within the licensed coverage area.

The service provides a range of community benefits (social gain objectives mandated by statute) for the target community, both on-air and off-air, and in doing so, achieves the following objectives:

- the facilitation of discussion and the expression of opinion,
- the provision (whether by means of programmes included in the service or otherwise) of education or training to individuals not employed by the person providing the service, and
- the better understanding of the particular community and the strengthening of links within it.

Members of the target community contribute to the operation and management of the service.

The service has mechanisms in place to ensure it is accountable to its target community.

[April 2014. Revised November 2016]

¹ Original output is output that is first produced for and transmitted by the service, and excludes output that was transmitted elsewhere before. Original output can be live or voice-tracked. Repeat broadcasts of original output do not count towards the minimum requirement.

² Locally-produced output is any output made and broadcast from within the service's licensed coverage area. It may include all types of local production.
