

Key Commitments

Licence number: CR000256

Service name	CamGlen Radio
Licence area	Cambuslang, Rutherglen and surrounding areas (as shown in the licensed coverage area map)
Frequency	107.9 MHz

Description of character of service

CamGlen Radio is for all residents of Cambuslang, Rutherglen and surrounding areas, reflecting the interests, needs, richness and diversity of the communities it serves. It operates as a local information hub, broadcasting information about local services, opportunities, events, campaigns and appeals.

The service broadcasts:

- Music. The main types of music broadcast over the course of each week are: commercial, contemporary and popular music across all genres and years. Specialist music also features.
- Speech. The main types of speech output broadcast over the course of each week are: community news and information, interviews and discussion, health information and advice.
- The service provides original output¹ for a minimum of eight hours per day.
- The service provides locally-produced output² for a minimum of 13 hours per day.

The studio is located within the licensed coverage area.

The service provides a range of community benefits (social gain objectives mandated by statute) for the target community, both on-air and off-air, and in doing so, achieves the following objectives:

- the facilitation of discussion and the expression of opinion,
- the provision (whether by means of programmes included in the service or otherwise) of education or training to individuals not employed by the person providing the service, and
- the better understanding of the particular community and the strengthening of links within it.

Members of the target community contribute to the operation and management of the service.

The service has mechanisms in place to ensure it is accountable to its target community.

[March 2015. Revised September 2016]

¹ Original output is output that is first produced for and transmitted by the service, and excludes output that was transmitted elsewhere before. Original output can be live or voice-tracked. Repeat broadcasts of original output do not count towards the minimum requirement.

² Locally-produced output is any output made and broadcast from within the service's licensed coverage area. It may include all types of local production.
