<b>Service name</b>	<b>Cabin FM</b>
<b>Licence area</b>	<b>Herne Bay (as shown in the licensed coverage area map)</b>
<b>Frequency</b>	<b>94.6 MHz</b>

**Description of character of service**

Cabin FM is a radio station for the general population of Herne Bay, north east Kent, with output delivered by the community, to the community and which promotes social cohesion. It provides information allowing people to access local events, local news, and other local services.

The service broadcasts:

- Music. The music broadcast over the course of each week is: predominantly from the 1960s to the present day, and features a variety of genres.
- Speech. The main types of speech output broadcast over the course of each week are: local and national news, weather and travel, sports news, events news, community information and discussions.
- The service provides original output<sup>1</sup> for a minimum of 65 hours per week.
- The service provides all locally-produced output<sup>2</sup>, apart from national news bulletins.

The studio is located within the licensed coverage area.

The service provides a range of community benefits (social gain objectives mandated by statute) for the target community, both on-air and off-air, and in doing so, achieves the following objectives:

- the facilitation of discussion and the expression of opinion,
- the provision (whether by means of programmes included in the service or otherwise) of education or training to individuals not employed by the person providing the service, and
- the better understanding of the particular community and the strengthening of links within it.

Members of the target community contribute to the operation and management of the service.

The service has mechanisms in place to ensure it is accountable to its target community.

[March 2017. Revised November 2019]

<sup>1</sup> Original output is output that is first produced for and transmitted by the service, and excludes output that was transmitted elsewhere before. Original output can be live or voice-tracked. Repeat broadcasts of original output do not count towards the minimum requirement.

<sup>2</sup> Locally-produced output is any output made and broadcast from within the service's licensed coverage area. It may include all types of local production.
