

Key Commitments

Licence number: CR102295

Service name	Revival FM
Licence area	Glasgow (as shown in the licensed coverage area map)
Frequency	93.0 MHz

Description of character of service

Revival FM is a service with a Christian perspective for the people of the City of Glasgow. It provides a service to meet many of the informational, social, and spiritual needs of all members of the community. It offers a full range of Christian music and programming.

The service broadcasts:

- Music. The main types of music broadcast over the course of each week are: Easy listening, contemporary Christian pop, rock and dance, gospel, country, traditional Christian music, classical and mainstream secular and specialist music programmes.
- Speech. The main types of speech output broadcast over the course of each week are: Glasgow area local news and information, traffic and weather reports, sports coverage, interviews and discussions, Christian-based programming including coverage of local church services and a Christian news programme.
- The service provides original output¹ for a minimum of 42 hours per week.
- The service provides locally-produced output² for a minimum of 91 hours per week.

The studio is located within the licensed coverage area.

The service provides a range of community benefits (social gain objectives mandated by statute) for the target community, both on-air and off-air, and in doing so, achieves the following objectives:

- the facilitation of discussion and the expression of opinion,
- the provision (whether by means of programmes included in the service or otherwise) of education or training to individuals not employed by the person providing the service, and
- the better understanding of the particular community and the strengthening of links within it.

Members of the target community contribute to the operation and management of the service.

The service has mechanisms in place to ensure it is accountable to its target community.

[April 2019]

¹ Original output is output that is first produced for and transmitted by the service, and excludes output that was transmitted elsewhere before. Original output can be live or voice-tracked. Repeat broadcasts of original output do not count towards the minimum requirement.

² Locally-produced output is any output made and broadcast from within the service's licensed coverage area. It may include all types of local production.
